EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In line 6 of Claim 5, the word —on—has been inserted after the phrase “and is thereby superimposed” so that the claim is grammatically correct and matches the same language to this effect added in Claim 1; and

In line 7 of Claim 5 the word —and—has been added before the phrase “at least one additional control system” again, so that the claim is grammatically correct and matches similar language to this effect added in Claim 1.

2. The following is an examiner's statement of reasons for allowance:

While U.S. Patent No. 6,648,426 to Boettiger et al discloses both a steering booster process and system for a motor vehicle having a steering arrangement for the input of a set steering variable by a driver, travel sensors, a steering control system configured to determine a steering control variable dependent upon the outputs from the travel sensors, and a brake control system configured to evaluate steering control system information for braking wheels of the vehicle, Boettiger et al '426 does not disclose that the braking control system operates to evaluate the set steering variable overlapped by the steering control variable from the steering control system. In other words, as applicant has stated in his remarks filed August 9, 2005, Boettiger et al

supplies a set steering signal to the brake controller, while applicant's invention provides a signal to the brake control system which includes not only the set steering signal but also the overlapped or superimposed steering control variable as well.

It is for this reason that applicant's invention defines over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Pam Rodriguez whose telephone number is 571-272-7122. The examiner can normally be reached on Mondays 5:30 AM -4 PM and Tuesdays 5 AM -11 AM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Chuck Marmor can be reached on 571-272-7095. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
